THE APPRAISAL OF CONTENT IS TENTATIVE.
(FOR KEY SEE REVERSE)

25X1

1. A new aluminum factory¹ has been under construction at Svaty Kriz nad Hronom and is now in production. Output is low, however, on account of electric power supply difficulties.
2. It is expected that the power supply problem will be resolved by 1953, when the factory will be capable of handling 184,000 tons of bauxite per year.
3. The bauxite is imported from Hungary.

1. Comment. This is presumably the Hron Metal Foundries National Corporation (Kovohuty Hron, n.p.).
